

APPENDIX D MONEY, MONEY, MONEY

5 pennies make a nickel
2 nickels make a dime
2 dimes and a nickel
make a quarter every time.

Penny, penny,
Easily spent
Copper brown
and worth one cent.

Dime, dime,
Little and thin,
I remember,
You're worth ten.

4 quarters make a dollar
and that is quite a lot.
One dollar in my pocket
is exactly what I've got.

Nickel, nickel,
Thick and fat,
You're worth five cents.
I know that.

Quarter, quarter
Big and bold,
You're worth twenty-five
I'm told!
